

Brick Specifications Flowcharts

Clayford T. Grimm¹

Abstract:

There are twelve ASTM standard specifications for brick, and by the time you read this there will be more. There is facing brick, building brick, hollow brick, thin brick, floor brick, glazed brick, sewer brick, chimney brick, manhole brick, firebox brick, chemical resistant brick, light traffic paving brick, and heavy traffic paving brick. Considering the number of grades, types, and classes of brick, finding one's way through that maze is a daunting problem. The charts in this paper may be helpful in that process.
